What is Boccia: Boccia is an Italian sport that everyone can enjoy. This sport tests ability of control instead of force and strength, allowing players to compete against one another regardless of any challenges they may face. The object of the game is to attempt to get game balls as close to the target ball as possible. Scoring is determined by the placement of the game balls nearest to the target ball. The balls are easy to grip and individuals with special needs are allowed to use ramps to propel their balls.
